

CITY&CONGRESS VENUE INFO

Istanbul (Istanbul 2010 European Capital of Culture):
Istanbul is a city of unparalleled historical and cultural richness that is as fascinating and historical as it is dynamic and modern. Serving as the capital of three mighty empires and set squarely between two continents, Istanbul has cultures and traditions that blend East with West and Mediterranean with Anatolian. Each civilization that has made its home in Istanbul has left its mark in some way, and the result we see today is a city that could only have come about after thousands of years of diverse cultures each adding a little something. With one foot in Europe and another in Asia, and a vibrant atmosphere rooted in history while facing toward the future, Istanbul is truly as much a crossroad of ideas and cultures today as ever. Come see it for yourself. Add your footsteps to those of the millions who have walked along the Bosphorus for millennia and sampled all that Istanbul has to offer.

What will happen in the year 2010 in Istanbul?

From 2006 onwards the name of Istanbul has been associated with culture and the arts all over the world. As Turkey moves ahead with the process of its candidacy for the European Union, the projects that will be realized will demonstrate that Istanbul, the symbol of the country, has been interacting with European culture for hundreds of years. The city's cultural heritage will be managed in a sustainable manner and it will become even more of a magnet than ever. With the renovation that will take place, the administrators and administered will join together, hand in hand, sharing their knowledge and experience, to develop a long term sustainable model for the future. Through discovering the beauty of their city, Istanbulites will be proud to live in such a city.

Congress Venue: The Istanbul Convention & Exhibition Centre (ICEC)
The Professional Facilities and Service Planners Demand, the Exotic Destination and Memorable Events Delegates Expect
The Istanbul Convention & Exhibition Centre (ICEC) has everything you need to organize memorable and successful congresses and exhibitions in the imperial city of Istanbul. The only place in Istanbul where 3,500 delegates can sit down together for a five-star gala dinner, ICEC offers you an outstanding combination of state-of-the-art facilities and superior service.

UNDER THE AUSPICES OF
HIS EXCELLENCY ABDULLAH GÜL
PRESIDENT OF THE REPUBLIC OF TURKEY

5th International APOCP Conference

Asian Pacific Organization
for Cancer Prevention

April 3-7, 2010

"The Istanbul Convention & Exhibition Centre (ICEC)"

INVITATION

Dear Colleagues,

Asian Pacific Organization for Cancer Prevention (APOCP) is a non-governmental organization that is engaged in cancer control especially in the Asia-Pacific region, where we encounter more than 60% of all cancer cases.

As the Director of the Cancer Control Department of the Ministry of Health of Turkey, I had been elected to be the president of APOCP. Therefore, the 5th International APOCP General Assembly Conference has been decided to be held in İstanbul. This meeting will be held in Lütfi Kırdar International Convention & Exhibition Centre in İstanbul on April 3-7, 2010.

The first week of April is also "The National Cancer Week" in Turkey, and this coincidence offers a great opportunity for the activities aiming at raising cancer awareness.

Owing to the coincidences with İstanbul's becoming a European Capital of Culture in 2010 and "the National Cancer Week", there emerges an opportunity for the implementation of a great project that will bridge the continents for cancer control.

While highlighting the issue of cancer, we will also bring forward the city of İstanbul by means of its history, and the issues of arts and sports by means of people's living spaces. Above all, we aim to unite all the world's countries and continents in İstanbul in a single body against cancer.

We look forward to seeing our friends from all over the world, who aspire to fight against cancer, in İstanbul on April 3-7, 2010 for this crucial event.

I hope you will enjoy being in İstanbul, where the continents meet through the magnificent Bosphorus.

Prof. A. Murat Tuncer M.D., President,
Asian Pacific Organization for Cancer Prevention

TOPICS

Cancer Stem Cell and Cancer Genetics
Tobacco and Cancer
Environmental and Occupational Cancers
